We present this magnificent luxury villa that has been completely renovated inside and out to a very high standard and specification. The current owners have meticulously improved and updated every inch of this incredible property. Situated on a large plot in the sought-after area of Pinar de Campoverde, this villa has it all.

The property consists of four bedrooms and three bathrooms. Entrance to the hall of the house, from here you have access to the large, very spacious living/dining room with a fireplace. This room is very bright and airy due to the orientation and the windows it has. Also from the living room we see the fully equipped open kitchen. We see a bathroom and there is also a door that gives access to the garage. The rear terrace off the kitchen has a shaded outdoor BBQ area so you can eat, sit and relax overlooking your beautiful garden. Going up the stairs to the first floor we find the bedrooms and two bathrooms. The main bedroom has an en-suite bathroom and built-in wardrobes. One of the rooms has beautiful views where you can see the sea, in this case the space is used as a living room. On the left side of the hallway is the very spacious main bathroom and the other two double bedrooms with built-in wardrobes.

The plot is mainly low maintenance with artificial grass with some fruit trees and flower borders.

Extras include solar panels.
